

2020

hope abidee

A Charity for Orphans in India

celebrating 10 years of hope and help

OVERVIEW

Hope Abides was founded in 2010 with the goal of providing help and hope orphaned and destitute children in India without regard to gender, religion or caste. Founding Board members Brent and Marie Adams, Suresh Kotha and Jan Polmanteer had no NGO experience to draw upon in creating this little charity; in fact, three of the four Board members had never been to India. What they did have was a deep belief that some of the most vulnerable children in the world were worthy of a helping hand.

Hope Abides was officially incorporated September 13, 2010 and work began to find deserving and trustworthy NGO's with whom we could partner. Major milestones in 2011 included inviting select Indian orphanages to submit applications for grants, performing due a diligence review of information provided, and site visits to all the finalist applicants; a journey that included traveling from the southernmost to the northernmost regions of the country.

By the end of 2011, we had raised over \$25,000 and made our first grants which included replacement of the dangerously unstable roof of a boys' dormitory and the purchase of a buffalo to provide milk for the orphanage's children.

Thanks to the help of volunteers, individual supporters, foundations and corporations, our donation base, our ability to help our children, has shown steady growth. Our individual supporters draw largely, but not exclusively, from California, and come from varied backgrounds - Indian and American, young, old and in-between; low-, mid- and high-incomes, many people of faith, as well as those with more secular views.

In 2019, donations topped over \$100,000 for the first time. In total we have raised over \$678,000* and awarded dozens of grants (totaling over half a million dollars) to help orphanages, schools and other NGO's who serve some the most at-risk children in the world.

* Note this amount reflects gross amounts from our fundraiser, not net; and in-kind (non-cash) contributions and services such as our annual audit.

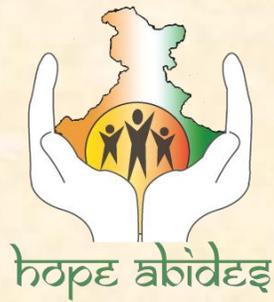

Your donations have provided thousands of meals for children, laid the foundation of a school now teaching hundreds, repaired crumbling infrastructure, and most importantly paid for the education of numerous children up to, and through, university.

We have further expanded our reach and your generosity by partnering with like-minded non-profits such as For One Another (FOA), Mahaan Aasha Foundation and Little Sun. For example with FOA, we have been able to provide clean water solutions by digging wells, laying pipe or giving ultra-efficient, lo-tech water filters to villages, schools and families. For some villages and families it was their first time ever having regular access to clean water.

We are thankful and proud of our successes. Of course there have been difficulties and setbacks along the way. Our biggest on-going challenge in the U.S. is the raising of funds for children half a world away. Only 6% of giving in the U.S is for international causes. This means before we even approach potential donors, we are already at a disadvantage due to typical giving priorities. This is what makes your support so critical and appreciated.

For all we do accomplish, there is still an enormous need in India. It is our hope and belief that many of the children, as they enter adulthood, will be able to help others thereby amplifying the impact of Hope Abides.

Globally, COVID was one of the dominating issues in 2020; not only from a health perspective, but also its financial ripple effects. Our revenue dropped by approximately 40% from 2019. Children's lives were disrupted with schools closing, and many orphans being returned to extended family to wait out COVID. As 2021 ramps up, we are expecting our partners to be making requests for education related grants. School for many has resumed. This will mean children will need help with tuition, books and more – especially college and university students for whom the costs are relatively prohibitive.

If you believe in our mission,
if you feel touched by some of the stories below,
please help us help them.

Donate [here](#).

We would love if you pass along this newsletter to
others who may want to be part of the children's lives.

We asked some of our partners, as well as a few
others, to provide a small write up on how
Hope Abides has been part of their lives.

Below are their responses, in their own words.

Aum Pranava Ashram Trust Children's Home (since 1996)

June 2020

An Appreciation of Hope Abides' Support Since 2014

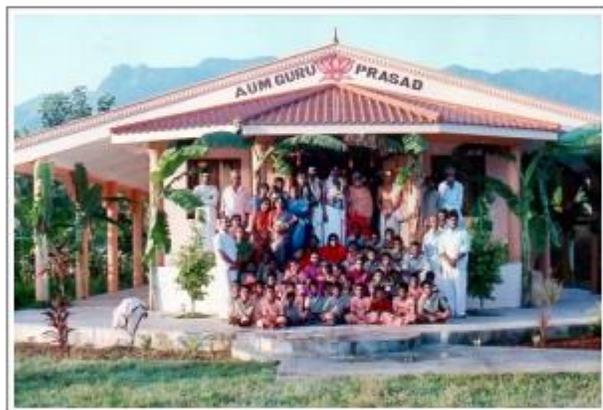

AUM PRANAVA ASHRAM TRUST
Five Falls Bypass Road, Ilanji 627805
Tenkasi District, Tamil Nadu, India.

10 YEARS HOPE ABIDES (SINCE 2010)

A Report of Hope Abides' Impact on the Children's Home of the Aum Pranava Ashram Trust since 2014/2015

Educational support for the children

The Aum Pranava Ashram Children's Home was founded in 1996 in South India in the State of Tamil Nadu. The married couple V. Visvanathan (Indian) and Edeltraud Englert (Austrian) are the founders of the Children's Home and have been living with the children in a family-like atmosphere since its inception

This picture was taken in September 2004, when the Prayer Hall was inaugurated

in 1996.

Hope Abides started supporting the Children's Home in the school year 2014/2015, after a visit of the founders, Mr. and Mrs. Brent and Marie Adams, to the ashram premises.

Initially, Hope Abides helped meet the children's living expenses by providing individual donor support for individual children.

From the school year 2017/18 onwards, Hope Abides started funding the school education for many children of the Children's Home. In the school year

10 YEARS HOPE ABIDES (SINCE 2010)

2017/18, Hope Abides contributed more than ₹3 Lakhs (Rs.300,000) to cover the school fees and uniforms for 40 children.

From the academic year 2018/19 onwards, Hope Abides decided to include the educational expenses for Higher Education to their list of substantial contributions to the Aum Pranava Ashram Trust.

Helping children achieve their goal to study at various (local) colleges or vocational institutions is a long-term, academic effort and requires financial back-up from the donor community.

As social workers with a vision to help underprivileged children achieve their goals and lead a good, peaceful, and more insightful life, we must rely on good-hearted people to support our work. Hope Abides has shown its continued commitment to look out for the weaker sections of society in developing countries, especially for the sake of children's education.

We thank all the donors of Hope Abides for their commitment to the social upliftment of society's downtrodden children from broken or incomplete families. Their hearts have been touched by the compassion of Hope Abides' donors, and their lives turned around for the better unfolding of human, ethical values. Every positive experience, however small it may be, assists the children's self-confidence so that they can pass the love that they have received here at the ashram on to their environment in their lives.

We express our deepest gratitude to all the sponsors of Hope Abides and congratulate Hope Abides on their 10th anniversary! Without them, so many children would not have been able to improve their life and educational standards.

S. Saroja, sponsored by Mr. Dennis Knight, Hope Abides Saroja has always been a good and ambitious ashram student. She wanted to become a doctor, but she could not pass the academically rigorous exam for entering a medical college. As promoters of her Higher Studies, we found a Nursing and Paramedical Science College in Tamil Nadu near her mother's home. Hope Abides found a sponsor for her Medical Lab Technology Course, where she is studying her second year successfully. Her father took to heavy drinking with violent

10 YEARS HOPE ABIDES (SINCE 2010)

outbreaks of anger. Eventually, he died an early death, leaving his illiterate wife and four children behind without family support. One of Saroja's siblings committed suicide.

The kind support of Hope Abides has empowered this girl to stand on her own legs and lead a more independent life.

S. Vigneshwari, sponsored by Hope Abides

She is completing her third year in Physics and will graduate in 2021 (B.Sc.Physics). She wants to become a Science teacher at a High School. If she had not studied for a degree, her estranged father would have strongly considered marrying her to a man of his choice, since her mother is not in a position to support her financially.

The kind support of Hope Abides has empowered this girl to stand on her own legs and lead a more independent life.

In request to your requirement for the impact review, kindly find below the details.

Impact of HOPE ABIDES at KESS

KESS is proud to be in partnership with Hope Abides from 2017, helping our mission directly and indirectly. The direct support are the grants received annually since then to the school going poor children especially those infected or affected with HIV/AIDS, cancer and the flood disasters. Funds for tuition, boarding, transportation and educational materials like uniform, school bags, stationery materials, books, study furniture etc were provided to nearly 300 children during this period. Apart from these, Hope has always been highly supportive in linking KESS with other funding agencies which has helped extend our network and find other productive partnerships. Such linkages have helped us provide poor children with educational support and sponsorships, facilitate drinking water provisions such as water wells, tanks, natural pits, water purifiers etc to poor families in drought affected regions and natural disaster relief to various parts of the country, especially in the rural, tribal colonies in primitive conditions.

KESS is ever grateful to Hope Abides and the support received through all the benefactors associated. You have constantly been that great pillar of support from across the world, reflecting that care and hope has no borders nor distance. We can never be thankful enough for your concern to our children, many of whom have progressed academically, psychologically and socially due to this continuous support we have been able to provide as a result of this collaboration. The blessings and prayers of these children and the various families are always with you all. KESS is honoured and greatly blest to be associated with Hope Abides and we pray our partnership continues to make the lives of these families and our world a better place.

Case Studies of Children supported by Hope Abides

1. Riya N.V.

Riya's family's condition was one that everyone sympathized. The only breadwinner of her family-her father died of cancer after a long period of expensive treatment hence pushing the poor family even further into debt and loans without the means or the income to clear them. Riya has a younger brother and sister apart from her mother-a frail lady who isn't quite healthy herself. KESS took upon the care and support of this needy family, especially the education support of Riya and her siblings. The regular support from HOPE Abides really helped since Riya's higher secondary and higher studies required more fees than her school going younger ones. KESS also helped her mother get into a daily wage job and found sponsors to help them restore their house on the verge of collapse. Riya's meritorious admission to the degree course in Web Technology in a reputed College was a great achievement but the fee structure was a great cause of concern and she almost backed out if it weren't for the great support of HOPE Abides which gave KESS the confidence to motivate her further. This academic year where the COVID Pandemic caused great distress to everyone especially students like Riya, the support of HOPE Abides helped KESS to give her a Laptop since her studies required the same for better functioning and studies. Riya and her family together with KESS are extremely thankful to HOPE Abides for the consistent support provided which has helped such poor children like Riya achieve heights they could only previously dream of.

2. Andrea Ann Helena

Andrea studies in Std. 8 from a family that is in an extremely poor financial situation ever since her grandfather had been affected with cancer. All the assets and resources of the family had been spent for his treatment and other supports required to help him throughout the illness but finally he succumbed to it, leaving Andrea's grandmother, parents, little sister and herself at tenderhooks of an unknown future with nothing to call their own. When her father was not capable to hold onto a job due to his heart ailments, it was her elderly grandmother, who helped bring in the day to day ration for the family by managing a nursery sales outlet, supported by KESS. After a long struggle, in the midst of surgeries, medication and ill health, her father could also start a small grocery unit next to their home. Her mother took care of the daily household affairs courageously even when the family often did not have enough for a meal. Andrea knew that she had to give it her all to improve the conditions of her family. The interventions of KESS with the help and support of HOPE Abides has been a great help throughout these years for Andrea by providing study materials, personality development sessions, soft skills, career guidance etc. helping her perform better in her studies. Apart from winning excellent grades in her academics, Andrea also excels in oration, having participated and getting prizes at the district levels on a yearly basis. Her determination is an inspiration to her family members especially her little sister who is also competitively trying her best to score well in all the spheres just like her elder sister. Her family is always obliged to KESS and HOPE Abides, for surely KESS could not have pulled up this child without this full fledged support from HOPE.

KESS is sincerely thankful to HOPE Abides, especially to all its benefactors, volunteers, associates and supporters for reaching across the globe to help our children in distress, whether it is to support their annual academic needs, specific educational requirements, emergency situations like natural disasters or pandemics; HOPE has been most kind to our needs always.

Thank you so much for your wonderful support. We hope and pray that you will continue to help our children and together we can build a better future for them.

Thanks and regards,

Fr. Thomas Vazhakkala CMI

Secretary, KESS

Ratna came to Sphoorti in 2006 when her mother just passed away. She was 9 years old then. Her father is an agricultural laborer and was not in a position to support her studies and pay for her other expenses.

Since she had never been to school, we had to start from scratch. She attended Kindergarten to learn basics. With great efforts from our staff and school teachers, she moved up the Grades and by the time she turned 16, she was able to complete Grade X and Grade XII by 18. Her good academic performance got her admission in Bhavan's Degree College, one of the premier Undergrad Colleges in Hyderabad. Support from Hope Abides and others gave us an opportunity to invest in Higher Education of our children who showed potential.

Ratna completed her Undergrad in 2018. She has since been working in Cognizant Technology Services as an IT Professional. She is not content in stopping there. She wishes to be a Data Scientist in future.

She also wishes to inspire girl children like her to think big and work for their goals.

I can explain the impact of Hope Abides with another example

Ratna has a younger sister Devi who had joined Sphoorti at the same time. She soon lost interest in studies and went back to her father. She did not attend school and was married off when she was 16. By 20 years of age, she has 2 children and is a stay-at-home mother.

Then

Now

Over the last one decade, Sai has grown from a child from an impoverished family into an intelligent and committed student.

He joined Sphoorti in 2011 from a very poor family. His father was sick and unable to work, his mother was working as a temporary worker in a food outlet in a hospital in Hyderabad.

With the help of Hope Abides and our staff, we were able to transform him into a confident student.

After he joined Bhavan's Degree College for his Bachelors' Program in Computer Science, his commitment levels increased further. He joined National Cadet Corps and completed the prestigious Certificate 'C', the final certificate for a Cadet. He is working hard to get into a good IT company. In the future, he wishes to have his own start-up.

In addition to the impact on individual children, Hope Abides has made an impact on our organization too.

Through your contacts, we were able to get sponsors for our building block. Good Works Institute and Guru Krupa helped us because you suggested Sphoorti. Guru Krupa has sponsored 6 rooms so far.

Hope Abides itself contributes through regular scholarship programs.

Saraswati Anath Shikshan Ashram सरस्वती अनाथ शिक्षण आश्रम

To, HOPE ABIDES

Date: 28th Nov 2020

USA

We, SARASWATI ANATH SHIKSHAN ASHRAM a non-profit located in Dapodi city Pune country INDIA, since last 24 years a consistent work is going for these orphan children and their overall development, as today more than 150 kids have completed their education under the program and settled their own life.

My great pleasure to showcase the two lines of total journey of 10 years with HOPE ABIDES,USA to reach here at a glance. As beginning, BRENT ADAMS has visited to INDIA, he observed many places how the works going, also learn how they get more advantage of the educational facilities under the entire program. There are the lot requirement and limited resources.

It has started to provide basic need of food and educational support, which reflects a healthy environment to these children, they learnt the disciplinary way of education. HOPE ABIDES arranged a yearly meet with these kids, which motivated to increase a confidence level with them. The kids represents their skills, how they are developing the more and more knowledge through this platform.

HOPE ABIDES extended the work to providing sponsorship program, individual gift to ranking students, which helps them to establish the more interest of their education. The decisions has been taken to establish a computer library, reading room, dining hall, construction of recreation room etc. for the better quality education for this orphanage.

On the other hand, a huge experiment done by HOPE ABIDES to call the seminar to representatives of Indian Orphanages those are involved in this program, the training workshop held at BHOPAL in 2015, MADHYAPRADESH, INDIA. It's a large size learning lesson to all the participants for this workshop.

The impact of the fund released by HOPE ABIDES USA...

- 1.The kids get more interest to learn the quality education.
- 2.The kids also improved the different skills, communication, music and dance and sporting fields in their own interest.

3. Two students gone for Mech. Engineering for their final year 2020. Sandesh and Yogesh are learning their final year of Engineering, if they could not get this platform, both replied that they would found a hard worker to earn the money for their bread-butter.

4. One student completed his Diploma in Tele-Communication diploma for year 2020. Govardhan said, it's a turning point to him, if he couldn't get a support, he not sure what he will be in future.

5. Two kids gone for vocational training, once they finish the course, they will an opportunity to get a job in their field. The two students SANDESH and RITESH get the support to qualify for them for the vocational course.

Food Project : HOPE ABIDES released a grant for grocery, milk, fruit, chicken & eggs which help a physically fit to these kids, otherwise it suffers to reach the local partner's to extend their hand for this program.

Building Project: HOPE ABIDES took the huge decisions to repairing works, construction of dormitories, dining hall which were the needful decisions to sustain this program at this location PUNE, INDIA.

If HOPE ABIDES will never considers these proposals, SASA will have to spend the more time to reach their goal.

(SASA `s main goal is to improve a quality education of these shelter home children).

Thanks,

Sincerely Yours,

DEVIDAS SURVASE-President,
SARASWATI ANATH SHIKSHAN ASHRAM

From Longtime Supporter Nalini Juthani

I have worked with you and Hope Abides for several years. Together we have improved physical health through sports, emotional stability, and intellectual stimulation through education in the orphaned children at SASA.

When I first supported this orphanage I visited them in Pune. I talked to the children and asked them what they would want from donors, they said “Milk twice a day”.

We, together sponsored twice a day milk and a banana for each child. After at least five years of our support for SASA, now we have graduates from high school, computers and a computer teacher. The Indian government closed a couple of orphanages in Pune and transferred their children to SASA. I am grateful and enthusiastic to work with you and Hope Abides in the future.

Hopefully, by end of this year we will be able to visit SASA.

Warm regards,

Dr. Nalini Juthani
January 2021

Moparru Orphanage

Dear Hope Abides,

Thank you very much for your support towards us. You have been helped us since 8 years and till now. Your sponsorship in many ways has brought a huge amount of help to our needs. We really want to thank you for being with us. You helped a lot to our children and for orphanage. We are heart felt thank you for knowing our every need and helping us.

Childrens:- You helped nearly 10 childrens in our orphanage. They all are very lucky to have you. You know our two children Murali and Sasi Kumar they both really thankful to have you. They don't have any future without you. By sponsoring them they are studying well and studying in good collage they will be in good position in future.

Waterfilter and Dining hall:- For our orphanage you gave waterfilter. Before, waterfilter we are bying water ever day from outside. After, waterfilter we are not going to buy water from outside. We are drinking safe water now. Another one is dining hall. Before, it was old shed. If any big stormes or winds comes the walls of old shed. has damaged and it is not safe for childrens. And you all came forward to help us and you are constructing the dining hall. These both are very helpful to us. You did such a great help to us. We always thankful to you by choosing us to sponsor. We are very happy to have you as part of our lifes.

From,
Moparru Orphanage

Old Dining Hall

New Dining Hall
(Under Construction)

MISSION FOR THE RURAL PEOPLE

It is an extreme Joy for me to receive working with Hope Abides.

I do not have the words to express my deep gratitude for Hope Abides supports. Without Hope Abides Nothing here. Hope Abides is doing a huge help in every way of our Mission for the Rural People projects.

Hope Abides are helping 150 children feeding and their education.

We have started a school building construction with Hope Abides Support. Now it is completed with 16 class rooms with ground floor and first floor. Present 300 children are studying in our school.

Nearly 40 children are studied higher grade education (College Education) through the grants help of the Hope Abides.

One of our girls called Saritha, she was completed Doctor of Pharmacy 6 years course through the help of the Hope Abides with 86 % marks.

One of the boys called Gangadhar, He is begging in the road side with his father and unexpectedly they were met Mr. Brent and Mrs Marie Adams in our orphanage in vellatur. They asked him to study so the father was agreed and he left here his son Gangadhar nearly 8 years back. His father was died but this boy is studying now in our orphanage with 10th grade. Now he is sponsoring by Hope Abides.

We have 150 children in our orphanage. But they are all eating out side. They saw the situation of the children when they are eating rains are coming and winds are coming all the dust go into their plates. At that time, we don't have any dining hall for the children, The Hope Abides are supported 4 years back they were supported to a Big Dining Hall and Kitchen Rooms for the children. This very huge and needy help for our children.

The Hope Abides donated a water filters to purify the water and it is helpful for villagers.

Hope Abides are built the water plants in 3 villages. Nearly 800 hundred people are benefitted in these 3 villages through their water plants. And in our school and orphanage children are every day they are drinking pure water from the plants.

Now 6 children are completed nursing courses through the Hope Abides grants. They got jobs in this COVID-19 time. We are over joyed because our children are got the good jobs of Nurses in this pandemic time. It is great blessing to our girls.

Now another girl Joyce Melody is studying MMBS (Doctor course) in Philippines. Now she is completed 2years with support of Hope Abides.

Hope Abides are supported for Boys Dormitory construction. This is also big dream fulfilled by Hope Abides. We have sister orphanage in Moparru. Now the Hope Abides are helping to constructing the dining hall.

Recently we are worried about the school maintenance. So, the Hope Abides are come forwarded to run the school like teachers' salaries, driver salaries and etc... It is unforgettable help by the Hope Abides.

Many are the Hope Abides are doing in our every aspect of our Mission projects. We cannot express our deep gratitude to Hope Abides team and Board Members.

Our Big thank to Hope Abides and Donors. Hope Abides is the BACK BONE OF OUR MISSION FOR THE RURAL PEOPLE. Without their help we cannot do nothing here.

Thanking You.

Yours Sincerely,

P. Ratnam.

Dear Brent,

Greetings from Premdham Ashram, Najibabad! We are very happy to learn about the 10-year Anniversary of Hope Abides. Hearty congratulations on this milestone! All the best to you, Mary and everyone who is associated with Hope Abides! This is a proud moment for all of us at Premdham!

We are fortunate to have a strong and committed partner like you. Premdham has been collaborating with Hope Abides for the last 7-8 years for many of our ongoing developmental work. Your support in the form of purchasing the bedding for our children, kitchen equipment, setting up a clean drinking water facility at the centre, purchasing a cloth dryer and commercial oven, among others, has helped us in many ways.

As you know, we had very limited resources as we started off. We would not have been able to make these facilities available to our children without your constant support. Hope Abides, especially, Brent and Mary, have been an integral part of our journey. We still fondly cherish your visit to our centre back in 2015. Whenever we required additional resources for a certain activity/ project, we never had difficulties in identifying a partner/ sponsor. It was always Hope Abides that came up first! In all these years, there isn't a single project, when requested, you didn't extend your support. We are ever grateful to you for being there through thick and thin.

We would like to acknowledge your contributions, support, and guidance in helping us reach where we are today. We will continue to seek your support and mentorship as we both continue our journey, impacting thousands of lives and driving lasting social change.

God bless you!

Benny Shibu

To
The Hope Abides Organisation,
United States of America.

Dear All,

I M. Saritha, one of recipient of Scholarship from "Hope Abides Organisation", writing here to express my gratitude for your generous financial help for pursuing my higher education i.e., Doctor of pharmacy from MLR Institute of Pharmacy.

I was born in a poor family with a dream of becoming doctor. By the help of my God gifted parents, "Mr and Mrs Brent Adams" and "Hope Abides Organisation", now I'm able to fulfill my dream. Now I'm in 6th year of course doing my internship. I'll be completing my course by September 2021 and will be searching for job.

By awarding me scholarship for "Hope Abides Organisation" made me to concentrate on my education. Your financial generosity has allowed me to be one step closer to my goal and inspired me help others by giving back to community. I hope one day I'll be help other students achieve their goal, just as you helped me.

"I thank each and every one for helping me". Please pray for me for getting good job.

Your's sincerely,

M. Saritha
